

Dear Hiring Team,

I am excited to apply for the Software Engineer position. As a Computer Engineering student with hands-on experience in backend and full-stack development, I have built and deployed applications using Python, Django, React, PostgreSQL, REST APIs, and Docker.

Through internships and personal projects, I have gained experience designing scalable web applications, developing APIs, working with databases, and collaborating in team environments. I am passionate about software engineering, problem-solving, and continuously learning new technologies, including AI and machine learning concepts.

I am particularly interested in opportunities where I can contribute to building impactful products while growing as an engineer. I am confident that my technical skills, strong work ethic, and eagerness to learn would enable me to make meaningful contributions to your team.

Thank you for your time and consideration. I look forward to the opportunity to discuss how my background and skills align with your needs.

Sincerely,

Elvis D'Souza
